Hi, how's it going? Great. Oh, I'm fine – just hanging out waiting for someone to stop in. Since you're here I'd like to tell you about the AdHouse logo. Well it is copyright 2007 AdHouse Books, which basically means it's pretty much off limits if you were looking for a logo. I'm sure you could come up with something wonderfully delightful all by yourself. Now the design and content of Zig Zag is an entirely different subject. They are copyright 2007 J Chris Campbell and no part of this publication may be reproduced or transmitted, in any form or by any means, without the express written permission of the author or the publisher. Names, characters, places and incidents featured in this publication are either the product of the author's imagination or are used fictitiously. Any resemblance to actual persons (living, dead or in limbo), events, institutions, hats, or locales, without satiric intent, is coincidental. Whew, that's a mouth full. Luckily being a block of legal text I don't have to worry about having a mouth. Welp, I guess that's about it. I really don't have much of anything else going on. I understand if you have to be going.

Take It Easy.
